

MEGA

“The Cool Roof Solution”

MEGA Industries Corporation is committed to consistently producing the highest quality, high performance reflective roof and wall coating products. Our systems provide an energy savings value to our customers, end-users, and the environment.

Since 1994, MEGA has been at the forefront of elastomeric coating technology and product development innovation. As a result of this ongoing effort, we offer a full line of coatings that when combined with systems accessories deliver superior adhesion and water resistance over a variety of roof and wall surfaces, including:

- **Built-up Roofs**
- **Metal Roofs**
- **Walls including Concrete, Masonry, and Stucco**
- **Modified Bitumen Roofs**
- **Aged Acrylic Coated Roofs**

MEGA is proud to be an **ENERGY STAR® Roof Products Partner** and in 2001, MEGA was awarded the DOE/EPA **ENERGY STAR® Qualified Roof Product** label after three years of rigorous field performance and testing.

MEGA is also **LEED® Qualified** and is a **Licensed Manufacturer of the Cool Roof Rating Council**.

Let MEGA assist you in developing a reflective coating system or roof restoration that meets your specific protective and waterproofing requirement. Contact us at (800) 772-7205 or visit our website for more information.
